Subject Index to Volume 33

A

Abdominal colic, thallium poisoning presenting with, 261–264
Accidents, chemical and environmental, role of clinical toxicologists in, 603–607
ACE. *See* Angiotensin converting enzyme (ACE) inhibitor
Acetaminophen
  effect of on prothrombin time assay (abstract), 512
  hepatotoxicity induced by, initial prothrombin time as predictor of (abstract), 508–509
  pediatric ingestion of, referral criteria for (abstract), 530
  shorter duration of *N*-acetylcysteine for acute poisoning by (abstract), 508
  sulfhemoglobinemia associated with NAC therapy of (abstract), 530
  See also Tylenol®
Acetone, pharmacokinetic evaluation of metabolite of by NMR, 141–149
Acetylcysteine, oral, angioedema with (abstract), 554
Activated charcoal
  commercially available suspension of, *in vitro* adsorption of phenobarbital, chlorpheniramine maleate, and theophylline by, 213–217
  determination of residues of in container for after prolonged undisturbed storage (abstract), 493–494
  evaluation of prehospital use of in acute poisoning (abstract), 491
  multiple dose effect of on systemic drug clearance, 399–405
  review of clinical studies of, 407–416
  and prevalence and predictors of emesis (abstract), 489–490
Adsorption, of theophylline in overdose, effect of activated charcoal and catharsis in prevention of, 43–49
Agricultural chemicals, exposure to reported to regional poison center (abstract), 535
Airway inflammation, chemical sensitivity as symptom of, 107–110
Alcohol
  comparative study of unithiol and verapamil treatment for acute intoxication by, in rodents (abstract), 500
  intoxication by in young children, 25–33
  See also Ethanol
Aluminum, fatal encephalopathy after otoneurosurgery with biomaterial containing, 645–648
Alzheimer's disease, blood mercury concentrations in, 243–247
Amantadine
  anticholinergic syndrome with severe rhabdomyolysis in poisoning by (abstract), 518–519
  overdose of (abstract), 516–517
Amatoxin, *Lepiota* containing, liver transplantation after severe poisoning by, 165–171
Amino acid analyzer, in determination of glyphosate in biological fluids, 695–698
Amitraz, human exposure to (abstract), 525
Amlodipine, fatal intoxication with, 253–256
Amphetamines. *See* TDxADx/FLx amphetamine/methamphetamine II immunoassay
Analyses of hazardous substances in biological materials (book review), 87
Anaphylactic shock, due to hyoscine and diphenhydramine (letter to editor), 189–190
Anemia, aplastic, induced by adulterated herbal medication, 467–470
Angiotensin converting enzyme (ACE) inhibitor, ingestion of in children (abstract), 509–510
Annual review of pharmacology and toxicology (book review), 391
Anticonvulsants, electroshock and neuromediator changes in rat brain after application of (abstract), 558
Antidepressants
  cyclic, cardiovascular repercussions of seizures during poisoning by, 205–211
  tricyclic, reversal toxicity due to by drug-specific Fab (abstract), 559–560
Antidotes
  characteristics of hospitals failing to stock (abstract), 555
  information on in *PDR* (abstract), 494
Antidotes for poisoning (book review), 392
Aphrodisiac, fatal (abstract), 539
Arrhythmias, due to digoxin toxicity, magnesium sulfate in treatment of, 55–59
Arsenic trioxide, anion exchange resin cholestyramine adsorption capabilities of (abstract), 539
Asia-Pacific region, pesticide poisoning in and role of regional information network, 677–682
Atenolol, cardiotoxicity of (abstract), 560
Atropine eye drops, effect of physostigmine on central effects of (abstract), 505

B

Baby oil, management of fatal case of lipoid pneumonia due to using extracorporeal membrane oxygenation (abstract), 496

Baseball deaths by poisoning (abstract), 561
Bedside toxicology consulting (abstract), 506
Benzocaine, methemoglobinemia induced by, acute myocardial infarction secondary to (abstract), 495
Benzodiazepines
  impact of regulatory changes on use of in Hong Kong, 597–602
  ingestions of in children (abstract), 520
Biological fluids, determination of glyphosate in using amino acid analyzer, 695–698
Biological monitoring application of to diagnosis of poisoning, 617–623
Biomaterials, containing aluminum, fatal encephalopathy after otoneurosurgery with, 645–648
Boiler additives, methemoglobinemia due to contamination of potable water from (abstract), 507–508
Broad-spectrum toxicology screening program, development of in Taiwan, 581–589
Brodifacoum, spontaneous hemoperitoneum from overdose of (abstract), 540
Bromine gas, in hot tubs, reactive airway disease secondary to exposure to (abstract), 536
Burger's medicinal chemistry and drug discovery (book review), 287–288
2-Butoxyethanol, multiple intoxications by (abstract), 550–551

C

Cadmium
  effect of calcium chloride on liver damage induced by (abstract), 541–542
  increased body burden in Chinese women without smoking and occupational exposure, 639–644
  liver and kidney toxicity induced by, in rats, effects of desferroxamine on (abstract), 541
  testicular toxicity induced by, in rats, protective effects of desferroxamine on (abstract), 539–540
Caladryl, poisoning by (abstract), 520
Calcium channel blockers, sustained release, accidental ingestion of in children (abstract), 515
Calcium chloride, hypercalcemia following ingestion of (abstract), 487
Carbamates
  as rodenticide, poisoning due to, 687–690
  workers exposed to, measurement of cholinesterase activity in (abstract), 535–536
Carbamazepine, correlation of outcome with level of at initial poison center contact, 311–323
Carbon monoxide
  effect of hyperbaric oxygen on adenosine in rat brain after poisoning by (abstract), 497
  in-home detectors of (abstract), 524
  poisoning by (abstract), 536
Carboxyhemoglobin, fetal hemoglobin interference with determination of (abstract), 548
Carcinogenicity, of chloral hydrate, 115–121
Cardiac arrest, following iatrogenic 3,4-diaminopyridine intoxication in patient with Lambert-Eaton myasthenic syndrome, 249–251
Cardiotoxicity, in thioridazine overdose, 199–204
Cardiovascular repercussions, of seizures during cyclic antidepressant overdose, 205–211
Catharsis, effect of in prevention of theophylline adsorption in overdose, 43–49
Catnip, altered mental status due to (abstract), 544
Charcoal. *See* Activated charcoal
Charged non-albumin bound drugs, adsorption of by amorphous silica, 457–462
Chemical accidents, role of clinical toxicologists in, 603–607
Chemical sensitivities
  multiple, 93–94, 95–99, 101–105
  multiple (abstract), 524–525
  and public policy, 111–113
  as symptom of airway inflammation, 107–110
Children
  behavioral and environmental factors associated with misuse of medication by caretakers of (abstract), 504
  preschool, stable isotope identification of lead sources in, 657–662
  prevention and educational strategies for awareness of accidental poisonings in, 663–667
  severity grading of poisoning in, 223–231
  young, alcohol intoxication in, 25–33
China medical university, epidemiology of adult poisoning at (abstract), 507
Chloral hydrate, potential carcinogenicity of, 115–121
Chlorine
  and chloramine (editorial comment), 355–357
  toxicity of, 349–354
Chlorine dioxide, nasal pathology and ultrastructure in persistent rhinitis with chemical sensitivity after exposure to (abstract), 525
Chloroquine
  hypokalemia related to acute ingestion of (abstract), 514
  poisoning by in West Africa, 369–370
Chlorpheniramine maleate, *in vitro* adsorption of by commercially available activated charcoal suspensions, 213–217
Cholestasis, prolonged, induced by ticlopidine, (letter to editor), 379–380
Cholinergic toxicity, from echothiophate iodide eye drops, 463–465
Ciguatera, mannitol for severe intoxication from (abstract), 496
Cisapride
  extrapyramidal reaction associated with (abstract), 515
  toxicity of (abstract), 490
Clinical toxicologists, role of in chemical and environmental accidents, 603–607
Cloninidine patch toxicity, 520–521
Cocaine
  body stuffers (abstract), 517
  myocardial infarction associated with, predictors of

Cocaine [*Continued*]
coronary artery disease in patients with (abstract), 532
Colchicine, clinical features and treatment following massive overdose of, 71–77
Comparative toxicology of hypolipidaemic fibrates (book review), 735
Concentration levels, provisional (letter to editor), 285–286
Continuous arterio-venous hemofiltration dialysis, treatment of ethylene glycol intoxication with, 267–270
Costs
of poisoning hospitalizations at children's hospital (abstract), 537–538
See also Economic evaluations
Coumaphos intoxication, as mimic of food poisoning, 699–703
Cyanide, poisoning, efficacy of α-ketoglutaric acid and sodium thiosulfate in poisoning by, 721–724
Cyclic antidepressants, cardiovascular repercussions of seizures during poisoning by, 205–211

D

Deferoxamine
intermittent infusions of, in treatment of severe iron poisoning, 61–66
oral, effect of on iron absorption in humans, 325–329
pulmonary injury induced by (abstract), 495
Desipramine, effect of nitric oxide on hypotension associated with toxicity of in rats (abstract), 497
Dextromethorphan, dystonic reaction associated with ingestion of in toddler (abstract), 522
Diagnosis, of poisoning, application of biological monitoring to, 617–623
Dialysis
compared to hemoperfusion for removal of glufosinate ammonium, 691–694
continuous arterio-venous hemofiltration, treatment of ethylene glycol intoxication with, 267–270
3,4-Diaminopyridine, iatrogenic, cardiac arrest following intoxication by in patient with Lambert-Eaton myasthenic syndrome, 249–251
Diclofenac, renal impairment after acute overdose of, 173–177
Diethylene glycol, in commercial polyethylene glycol solutions (abstract), 490
Digoxin
Fab specific to, effect of in reversal of digoxin cardiac toxicity in rats (abstract), 498
magnesium sulfate in treatment of ventricular arrhythmias due to, 55–59
Diltiazem, poisoning by with intestinal pseudo-obstruction, 273–277
2,3-Dimercapto-1-propane sulfonic acid, evaluation of urinary mercury excretion after administration of, 717–720
2,3-Dimercaptosuccinic acid, complexing properties of with lead (abstract), 540
Diphenhydramine, fatal anaphylactic shock due to (letter to editor), 189–190
Disaster victims, chemical, management of, 609–616
Disulfoton, acute organophosphate poisoning after ingestion of, 151–155
Diuretics, thiazide, cutaneous lupus-like reaction due to, 729–733
Divaloproex, delayed peak serum valproic acid level in overdose of (abstract), 549
Donors, poisoned, organ removal from, 709–712
Drug abuse, prevention of, 575–579
Drugs
charged non-albumin bound, adsorption of by amorphous silica, 457–462
systemic, effect of multiple dose activated charcoal on clearance of, 399–405
See also Specific drugs
Dysrhythmia, QRS complex, effect of sodium bicarbonate on, in propoxyphene overdose, 179–183

E

Ecbalium elaterium, clinical effects of juice of in treatment of sinusitis (letters to editor), 381–382, 383
Echothiophate iodide eye drops, cholinergic toxicity from, 463–465
Economic evaluations
of regional poison centers, production model as basis for, 233–237
See also Costs
Ecstacy, role of serotonin in death from (abstract), 550
Education strategies, for prevention of accidental pediatric poisonings, 663–667
Encephalopathy, fatal, after otoneurosurgery with biomaterial containing aluminum, 645–648
Endosulfan
acute tubular necrosis following poisoning by (letters to editor), 375, 377–378
insecticide, acute tubular necrosis following poisoning by, 67–69
Environmental accidents, role of clinical toxicologists in, 603–607
Environmental toxicology service, toxicological and neuropsychological findings in, 623–629
Epidemiology, poisoning (abstract), 561
Epinephrine, fatal outcome of overdose of by IV injection of asthma inhaler (abstract), 501–502
Ergotism
St. Anthony and (abstract), 560
treated with cyproheptadine (abstract), 552
Esmolol, IV, survival following overdose of (abstract), 490–491
Ethanol
effect of on electromechanical depression induced by haloperidol (abstract), 499
IV vs oral administration of (abstract), 489
See also Alcohol

Ethylene glycol
brainstem and midbrain dysfunction due to (abstract), 548
inhalation of (abstract), 553
treatment of intoxication by with continuous arteriovenous hemofiltration dialysis, 267–270
Eye drops, echothiophate iodide, cholinergic toxicity from, 463–465

F

Fatal poisonings
with amlodipine, 253–256
by lorcainide, 157–159
by sodium nitrite, 131–133
Fenfluramine, delayed release, whole bowel irrigation in overdose of, 161–163
Fentanyl
toxicology of, 439–447
withdrawal seizures in neonate following prolonged use of (abstract), 493
Firing range, indoor, chronic lead intoxication in (letter to editor), 371–372
FK506, overdose of (abstract), 487–488
Flour, contaminated with tricresyl phosphate, polyneuropathy due to (letter to editor), 373–374
Flumazenil, use of in overdose patients (abstract), 522–523
Fluorinated hydrocarbons, oral frostbite injury from (abstract), 501
Food poisoning
coumaphos intoxication as mimic of, 699–703
outbreak of due to rancid biscuits, 219–222
See also Flour; Mushrooms; Sugarcane
Formic acid, systemic toxicity resulting from skin burns by (abstract), 491–492

G

Gabapentin, overdose of (abstract), 521–522
Glow compounds, exposure to (abstract), 488
Glucagon
combined with milrinone, in treatment of severe propranolol poisoning in dogs, 337–342
response to in imipramine overdose, 51–53
Glufosinate
acute oral toxic dose of herbicide containing (abstract), 519
hemodialysis for elimination of (abstract), 546
Glufosinate ammonium, comparative study of direct hemoperfusion and hemodialysis for removal of, 691–694
Glycosaminoglycan, as marker of nephrotoxicity in hydrocarbon-exposed subjects (abstract), 534
Glyphosate, determination of in biological fluids, using amino acid analyzer, 695–98
Glyphosate-surfactant intoxication, endoscopy survey of (abstract), 553
Gold, mercury levels in Brazilian refiners and miners of, 1–10
Gonadotropic hormone, in female workers, effect of CS_2 on (abstract), 499
Granisetron, for prevention of nausea and vomiting in overdosed patient (abstract), 521

H

Hair relaxers, toxicity of (abstract), 514
Hemoperfusion, compared to hemodialysis for removal of glufosinate ammonium, 691–694
Herbal medications
adulterated, aplastic anemia induced by, 467–470
for penile dysfunction, hypertensive crisis due to (abstract), 545
use of in emergency department patients (abstract), 533
Heroin
delayed encephalopathy after use of (abstract), 494
scopolamine-tainted, epidemic anticholinergic poisoning from (abstract), 502
severe rhabdomyolysis mimicking transverse myelitis in addiction to, 591–595
Homeostasis, potassium, disturbances of in poisoning, 295–310
Hydrofluoric acid, eye burn from, calcium gluconate in treatment of (abstract), 535
Hydrogen peroxide, 3% toxicity of (abstract), 488
Hydroxychloroquine, cardiotoxicity of (abstract), 548
Hyoscine, fatal anaphylactic shock due to (letter to editor), 189–190
Hyperbaric oxygen therapy, for carbon monoxide induced recurrent cerebral dysfunction (abstract), 516

I

Ibuprofen, hypoprothrombinemia without hepatocellular injury in overdose of (abstract), 492–493
Imipramine, response to glucagon in overdose of, 51–53
Immune thrombocytopenia, and elemental mercury poisoning, 449–455
Immunoassay, TDxADx/FLx amphetamine/methamphetamine II, of urine specimens following nasal inhaler use, 35–41
Inflammation, airway, chemical sensitivity as symptom of, 107–110
Inhalants, epidemiology of abuse of (abstract), 499–500
Inhalers, TDxADx/FLx amphetamine/methamphetamine II immunoassay of urine following use of, 35–41
Insecticides
endosulfan, acute tubular necrosis following poisoning by, 67–69
See also Pesticides; Specific insecticides
Intensive care units (ICU), therapeutic toxicity in, 417
Intermediate syndrome, in organophosphate poisoning, 683–686
Intestinal infarction, due to nifedipine overdose, 725–728
Intestinal pseudo-obstruction, diltiazem poisoning with, 273–277
Introduction to toxicology (book review), 393

In vitro skin toxicology irritation, phototoxicity, sensitization (book review), 288
In vitro toxicology (book review), 87–88
Ipecac syrup, free distribution of (abstract), 503
Iron
  acute intoxication by, effect of deferiprone on mortality of in rats (abstract), 498–499
  effect of oral deferoxamine on absorption of in humans, 325–329
  elevated serum levels of, conservative management of, 135–140
  prevention of absorption of by deferoxamine/charcoal mixture (abstract), 556
  severe poisoning by, intermittent infusions of deferoxamine in treatment of, 61–66
Iron-dextran, overdose of (abstract), 515–516
Irritability, thallium poisoning presenting with, 261–264
Isopropanol, serum, pharmacokinetic evaluation of by NMR, 141–149

J

Jimsonweed, abuse of (abstract), 500

K

α-Ketoglutaric acid, efficacy of in cyanide poisoning, 721–724

L

Lambert-Eaton myasthenic syndrome, cardiac arrest following iatrogenic 3,4-diamonopyridine intoxication in patient with, 249–251
Lead
  in breast milk (abstract), 540–541
  calculation of blood concentrations of (editorial commentary), 389–390
  calculation of blood concentrations of (letter to editor), 385–387
  changes in blood concentrations of in pregnancy and lactation (abstract), 529
  chronic intoxication by at firing range (letter to editor), 371–372
  encephalopathy from, status epilepticus and severe neurologic impairment from (abstract), 529–530
  nephropathy due to, detection of using early renal markers, 331–335
  non-poisoning with (abstract), 538
  in plasma, response of to oral chelation with succimer (abstract), 538
  pool cue chalk as source of (abstract), 540
  stable isotope identification of sources of in preschool children, 657–662
  stable isotope of for source identification, 649–655
Leiurus quinquestriatus, scorpion, paresthesia in envenomation by, 79–82
Lepiota, amatoxin-containing, liver transplantation after severe poisoning due to, 165–171
Lidocaine, oral viscous, use of in children (abstract), 506
Lithium, neonatal toxicity due to (abstract), 555
Lithographic developer solution, toxicity of, 343–348
Liver transplantation, after severe poisoning due to amatoxin-containing Lepiota, 165–171
Lorcainide, fatal poisoning by, 157–159
Lupus-like reaction, cutaneous, due to thiazide diuretics, 729–733

M

Magnesium, iatrogenic IV overdose of causing cardiac arrest (abstract), 489
Magnesium sulfate, in treatment of ventricular arrhythmias due to digoxin toxicity, 55–59
Manganese workers, heart rate variability as index of autonomic dysfunction in (abstract), 534–535
Meconium drug analysis, extraction methods for (abstract), 556
Mercury
  blood concentrations of, in Alzheimer's disease, 243–247
  elemental, immune thrombocytopenia and poisoning by, 449–455
  excretion of after administration of 2,3-dimercapto-1-propane sulfonic acid, 717–720
  levels of in Brazilian gold refiners and miners, 1–10
Methamphetamines. *See* TDxADx/FLx amphetamine/methamphetamine II immunoassay
Methemoglobinemia, late onset, metobromuron/metolachlor ingestion with, in pregnant woman treated with methylene blue, 713–716
Methylene blue, metobromuron/metolachlor ingestion with late onset methemoglobinemia in pregnant woman treated with, 713–716
Methylphindate, choreoathetoid reaction associated with ingestion of in toddler (abstract), 522
Metobromuron/metolachlor, ingestion of with late onset methemoglobinemia in pregnant women treated with methylene blue, 713–716
Mice, pulmonary collapse and pneumonia due to inhalation of waterproofing aerosol in, 631–637
Milrinone, combined with glucagon in treatment of severe propranolol poisoning in dogs, 337–342
Miners, gold, mercury levels in, 1–10
Mistletoe, exposures to (abstracts), 543, 545
Mivacurium, and pancuronium administered in series, neuromuscular blockade with, 271–272
Multiple chemical sensitivities, 93–94, 95–99, 101–105
  and public policy, 111–113
  as symptom of airway inflammation, 107–110
Multiple organ failure
  fatal, due to wasp venom, 471–474
  from organophosphate poisoning, 257–260
Mushrooms
  pediatric exposures to (abstract), 557
  renal failure due to poisoning by (abstract), 544
  See also Lepiota

N

Nadolol, treatment of toxicity of with hemodialysis (abstract), 517
Naproxen, renal impairment after acute overdose of, 173–177
Nasal toxicity and dosimetry of inhaled xenobiotics (book review), 288–289
Nephropathy, lead occupational, detection of using early renal markers, 331–335
Neuromuscular blockade
  with mivacurium and pancuronium administered in series, 271–272
  prolonged paralysis after, 419–426
Neuropsychological findings, in patients presenting to environmental toxicology service, 625–629
Neurosurgery. *See* Otoneurosurgery
Nifedipine, intestinal infarction due to overdose of, 725–728
Nitric oxide, pharmacology and toxicology of, 427–438
NMR. *See* Nuclear magnetic resonance (NMR)
Non-exposure, categorization of cases of in poison centers (abstract), 501
Nuclear magnetic resonance (NMR), pharmacokinetic evaluation of serum isopropanol and acetone metabolite by, 141–149
Nutrition, effects of on cholinesterase activity and cocaine toxicity in mice (abstract), 532

O

Occupational exposure, increased body cadmium burden in Chinese women without, 639–644
Occupational toxicology (book review), 290
On-line medical control, for toxic exposures (abstract), 545–546
Organ failure, multiple systems, from organophosphate poisoning, 257–260
Organophosphates
  acute poisoning by after disulfoton ingestion, 151–155
  brain involvement in poisoning by (abstract), 509
  intermediate syndrome in poisoning by, 683–686
  multiple systems organ failure from, 257–260
  prophylaxis and treatment of poisoning by (abstract), 559
Organophosphorus compounds, effects of on serum cholinesterase in dogs (abstract), 498
Organ removal, from poisoned donors, 709–712
Otoneurosurgery, with biomaterial containing aluminum, fatal encephalopathy after, 645–648
Outcome, correlation of with carbamazepine level at initial poison center contact, 311–323

P

Paints, interior, tributyltin in, 239–241
Pancuronium, and mivacurium, administered in series, neuromuscular blockade with, 271–272
Paralysis, prolonged, neuromuscular blockade after, 419–426
Paramedic toxicology training (abstract), 505
Paraquat poisoning (book review), 736
Paresthesia
  in envenomation by scorpion *Leiurus quinquestriatus*, 79–82
  thallium poisoning presenting with, 261–264
Paroxetine, in pediatric overdose (abstract), 551
Patterns of poisoning, in urban Zimbabwe (abstract), 533–534
Pediatric poisoning. *See* Children
Pepper gas, severe pulmonary injury in infant after exposure to (abstract), 519
Personal care homes, poisonings in (abstract), 504
Pesticides, poisoning by
  in Asia-Pacific region, and role of regional information network, 677–682
  excitatory amino acids in treatment of (abstract), 558
Pharmaceutical calculations (book review), 88–99
Pharmacokinetic evaluation, of serum isopropanol and acetone metabolite by NMR, 141–149
Phenobarbital, *in vitro* adsorption of by commercially available activated charcoal suspensions, 213–217
Phenol, decontamination of burn from using golytely (abstract), 494–495
Picamilon, for treatment of ethanol withdrawal (abstract), 531–532
Pigs, neonatal, toxicity of vitamin E in, 123–130
Plants, toxicity of (abstract), 543–544
Pneumonia, due to inhalation of waterproofing aerosol, in mice, 631–637
Poison control centers
  abbreviations as source of communication trouble in (abstract), 513
  correlation of outcome with carbamazepine level at initial contact with, 311–323
  effect of recording machine on physician calls to (abstract), 513
  impact of on emergency department utilization rate (abstract), 557
  measures of "busyness" in (abstract), 512–513
  800 number for (abstract), 513–514
  public support for (abstracts), 526, 527
  regional disaster planning for (abstracts), 526
    information calls to (abstract), 527
    production model as basis for economic evaluations of, 233–237
  telephone system innovations in (abstract), 526
  time series forecasts of volume of calls to, 11–18
Poison control centers (abstract), 529
Poisoning management, controversies in, 397
  Poison prevention packaging act, compliance with (abstract), 503
Poland, acute poisonings in, 669–675
Polyneuropathy, due to flour contaminated with tricresyl phosphate (letter to editor), 373–374
Potassium homeostasis, disturbances of in poisoning, 295–310
Prevention
  of accidental pediatric poisonings, 663–667
  of drug abuse, 575–579

Production model, as basis for economic evaluations of regional poison control centers, 233–237
Propoxyphene, effect of sodium bicarbonate on QRS complex dysrhythmia in overdose of, 179–183
Propranolol, combined use of glucagon and milrinone in treatment of severe poisoning by, in dogs, 337–342
α-1-Protease inhibitor, pharmacology and toxicology of, 427–438
Pseudoephedrine toxicity, in children (abstract), 554
Public policy, and multiple chemical sensitivities, 111–113
Pulmonary collapse, due to inhalation of waterproofing aerosol, in mice, 631–637
Pulmonary edema, noncardiogenic, associated with triazolam (letter to editor), 185–187
Pulmonary medicine, pharmacology and toxicology of biologic agents used in, 427–438
Pyrodoxine, in prevention of hyperbaric oxygen toxicity seizures in rats (abstract), 531

Q

Quality assurance, hospital (abstract), 528
Quality assurance for biopharmaceuticals (book review), 89

R

Rabies triage, as poison control center program (abstract), 527–528
Rancid biscuits, foodborne disease outbreak due to, 219–222
Recombinant human DNase I, pharmacology and toxicology of, 427–438
Refiners, gold, mercury levels in, 1–10
Regional information network, role of in pesticide poisoning in Asia-Pacific region, 677–682
Regulatory changes, impact of on use of benzodiazepines in Hong Kong, 597–602
Remoxipride overdose, ventricular tachycardia associated with overdose of (abstract), 492
Renal impairment, after acute diclofenac, naproxen, and sulindac overdoses, 173–177
Renal markers, early, detection of occupational lead nephropathy using, 331–335
Rhabdomyolysis, severe, mimicking transverse myelitis in heroin addict, 591–595
Risperidone, effect of in overdose (abstract), 521
Risperidone toxicity (abstract), 552
Rodenticide
  epidemic cholinergic poisoning from (abstract), 546
  poisoning due to use of carbamate as, 687–690
Rural hospitals, poisoning care in (abstract), 507

S

Salicylates, topical, salicylism from (abstract), 546–547
Scorpion, *Leiurus quinquestriatus*, paresthesia in envenomation by, 79–82
Screening program, broad-spectrum toxicology, development of in Taiwan, 581–589
Seizures, during cyclic antidepressant overdose, cardiovascular repercussions of, 205–211
Selenium, poisoning by, from vitamin supplements (abstract), 541
Sertraline, in pediatric overdose (abstract), 551
Severity grading, of childhood poisoning, 223–231
Silica, amorphous, adsorption of charged non-albumin bound drugs by, 457–462
Sinusitis, clinical effects of juice of *Ecbalium elaterium* in treatment of (letters to editor), 381–382, 383
Smoking, increased body cadmium burden in Chinese women without, 639–644
Sodium bicarbonate
  effect of on QRS complex dysrhythmia induced by propoxyphene, 179–183
  metabolic alkalosis with respiratory compensation from ingestion of (abstract), 547
Sodium nitrite, fatal poisoning by, 131–133
Sodium thiosulfate, efficacy of in cyanide poisoning, 721–724
Sodium valproate, life-threatening intoxication with, 279–284
Solid medications, imprinting of (abstract), 506
Source identification
  lead, in preschool children using stable isotopes, 657–662
  stable isotopes of lead for, 649–655
Squill, *Urginea maritima*, toxicity of, 83–86
Storage, improper, as source of poisoning (abstract), 504
Stressors, SPI, identification of (abstract), 512
Strychnine, elimination kinetics following massive overdose of (abstract), 492
Sugarcane, moldy, poisoning by, 363–367
Sulfonylurea, prospective multicenter study of ingestion of by children (abstract), 509
Sulindac, renal impairment after acute overdose of, 173–177
Sulpiride, cholestatic hepatitis due to herb adulterated with (abstract), 542
Superwarfarin, accidental ingestion of, and Poisindex guidelines (abstract), 487
Systemic drug clearance, effect of multiple dose activated charcoal on, 399–405

T

Targets and toxins (book review), 89–90
TDxADx/FLx amphetamine/methamphetamine II immunoassay, of urine specimens following nasal inhaler use, 35–41
Tetrodotoxin poisoning, in Taiwan (abstract), 534
Thallium
  effects of potassium in poisoning by (abstract), 558–559
  poisoning by presenting with abdominal colic, paresthesia, and irritability, 261–264

Theophylline
effectiveness of activated charcoal and catharsis in prevention of adsorption of in overdose, 43–49
neonatal and infant toxicity from (abstract), 518
poisoning by treated with massive doses of activated charcoal, intestinal pseudo-obstruction in (abstract), 523
in vitro adsorption of by commercially available activated charcoal suspensions, 213–217
Therapeutic toxicity, in ICU, 417
Thiazide diuretics, cutaneous lupus-like reaction due to, 729–733
Thioridazine, cardiotoxicity in overdose of, 199–204
Thrombocytopenia, immune, and elemental mercury poisoning, 449–455
Ticlopidine, prolonged cholestasis induced by (letter to editor), 379–380
Time of day, for poison calls (abstract), 537
Time series forecasts, of poison center call volume, 11–18
Tourists, and crimes and toxicology (abstract), 533–534
Toxicology screen, pediatric, utility of (abstract), 516
Toxicomania, in Graham Frederick Young (abstract), 561
Transverse myelitis, severe rhabdomyolysis mimicking in heroin addict, 591–595
Triazolam, noncardiogenic pulmonary edema associated with (letter to editor), 185–187
Tributyltin, in interior paints, 239–241
Trichloroethylene, hepatitis and rash associated with sensitization to (abstract), 524
Tricresyl phosphate, polyneuropathy due to flour contaminated with (letter to editor), 373–374
Tricyclic antidepressants, reversal toxicity due to by drug-specific Fab (abstract), 559–560
Trigger point injection, intrathecal lidocaine administration during (abstract), 547–548
Tubular necrosis
acute, following poisoning by endosulfan insecticide, 67–69
acute following endosulfan insecticide poisoning (letters to editor), 375, 377–378
Tylenol®
dissolution of dosage formulations of under overdose conditions (abstract), 510–511
extended relief, overdose of (abstract), 511
rise in APAP level after overdose of (abstract), 510
See also Acetaminophen

U

Uptake systems, hepatic drug and toxin, multispecificity of (abstract), 531
Urginea maritima, squill, toxicity of, 83–86
Urine, TDxADx/FLx amphetamine/methamphetamine II immunoassay of following nasal inhaler use, 35–41

V

Valerian root extract, IV administration of (abstract), 542
Valproic acid, hemodialysis in poisoning by (abstract), 491
Venlafaxine
extrapyramidal side effects secondary to (abstract), 518
interaction of with tranylcypromine, serotonin syndrome from (abstract), 523–524
and maintenance tranylcypromine therapy, serotonin syndrome secondary to (abstract), 554
multicenter study of acute overdose of (abstract), 496–497
seizures after overdose of (abstract), 549–550
toxicity of, 359–361
Venom
scorpion *Leiurus quinquestriatus*, paresthesia due to, 79–82
wasp, fatal multiple organ failure due to, 471–474
Ventricular arrhythmias, due to digoxin toxicity, magnesium sulfate in treatment of, 55–59
Veterinary products, descriptive epidemiology of human exposure to (abstract), 537
Vitamin A toxicity, liver pathology in (abstract), 551–552
Vitamin E, toxicity of in neonatal pigs, 123–130

W

Wasp venom, fatal multiple organ failure due to, 471–474
Waterproofing aerosol, pulmonary collapse and pneumonia due to inhalation of, in mice, 631–637
Whole bowel irrigation, in delayed release fenfluramine overdose, 161–163
Woodstock music festival, 1994
epidemiology of substance abuse at (abstract), 503
laboratory confirmation of suspected substance abuse at (abstract), 502
